PROJECTS

Better Job Placement Platform
Job Listing & Career Placement Web Application

- Developed a responsive job placement platform with skill-based job recommendations and optimized user workflows.
- Built clean UI components using React.js to enhance navigation and job discovery.
- Implemented filtering, job cards, and structured layouts for a smoother application experience.

- Focused on performance, accessibility, and user-friendly design across devices.

Slog Fitness Center Website

Responsive Fitness & Training Website

- Built a modern, mobile-responsive fitness website with dynamic sections for programs, trainers, and membership plans.
- Designed visually appealing layouts with consistent branding and smooth navigation.
- Improved user engagement with interactive elements and structured content flow.
- Ensured fast performance and optimized loading for all devices.

Designer Portfolio

Personal Portfolio Website for Designer

- Developed a clean and visually engaging portfolio website for showcasing design projects.
- Implemented smooth animations, transitions, and interactive layouts using React and CSS.
- Focused on a minimal aesthetic to keep the user's attention on the showcased work.
- Ensured the website is responsive and performs well on all screen sizes.

Company Website

Service-Based IT Company Website

- Developed a professional and responsive website for a service-based IT company showcasing its core services, solutions, and business capabilities.
- Built clean, modular UI components using React.js to ensure smooth navigation and a polished user experience.
- Designed sections for services, industries, contact forms, and company information to improve lead generation and customer engagement.
- Ensured mobile-first design, optimized loading speed, and consistent branding across all pages.
- Deployed on Firebase Hosting for reliable performance, secure access, and fast global delivery.

DayCare Management Website

Responsive Daycare Service Website

- Created a responsive website providing daycare service details, enrollment workflow, and parent engagement features.
- Built clean layouts and informational sections to help parents easily browse programs and facilities.
- Ensured mobile-first design for convenience across devices.
- Focused on usability, readability, and a warm, professional design aesthetic.

OfferToday - Deals & Offers Aggregation Platform

Real-Time Deals & Offers Web Application

- Built a clean and responsive platform for browsing the latest deals, offers, and discounts across categories.
- Implemented dynamic UI components with React.js to deliver fast loading and smooth navigation.
- Designed structured layouts for listing offers with clear pricing, highlights, and call-to-action elements.
- Ensured mobile-friendly performance and consistent user experience across devices.
- Focused on simplicity, usability, and providing users with quick access to active deals.
